

Medicare Part D Drugs with Quantity Limit Restrictions

Employer-based Plan Formulary

For certain drugs, MVP Health Care limits the amount of the drug that is covered. For example, MVP provides coverage for 1 tablet per day of JANUVIA. This means that you will need to get approval from MVP if you or your doctor believes that you require more than the quantity limit. If you don't get approval first, MVP may not cover more than the covered quantity. You can ask MVP to make an exception to our coverage rules. For more information, refer to the MVP Health Care Medicare Part D Formulary ("How do I request an exception to MVP's Medicare Part D Formulary").

Drugs with quantity limit restrictions have the abbreviation "QL" in the Formulary under the Notes column next to the drug name.

Product Name	Quantity Limit Description
ABILIFY ASIMTUFII	1 syringe every 56 days
ABILIFY ASIMTUFII	1 syringe every 56 days
ABILIFY MAINTENA	1 syringe every 28 days

If your Part D coverage is through your former employer and includes enhanced drug coverage, please check the Employer Group Formulary.

^{PA} Drugs that require prior authorization have the abbreviation "PA" in the Formulary under the Notes column next to the drug name.

ST Drugs with step therapy requirements have the abbreviation "ST" in the Formulary under the Notes column next to the drug name.

*A formulary exception request may be required for a brand name drug if the drug is not listed on the Formulary and there is a generic equivalent available.
